

BBA DAMP-PROOF MEMBRANE

BS EN 13967:2012 + A1:2017

Thickness	250mu /1000g	300mu/1200g	500mu/2000g
Roll Width (m)	4	4	4
Roll Length (m)	25	25	12.5
Tensile Strength (N/50mm)	>130	>150	>150
Elongation (%)	>450	>450	>450
Water Vapour Trans (Sd value m)	253.13	284.8	498.6
Watertightness (2kPa)	PASS	PASS	PASS
Nail Tear (N)	180	217	324

Installation

It is recommended that DPM is installed on a 50mm sand blinding.
 250mu DPM should not be installed below the slab

Storage

Rolls should be stored undercover and on a flat level surface, prolonged exposure to sunlight will degrade the product.

This product is manufactured from recycled low-density polyethylene (LDPE).
